

Sprint 4 Retrospective

EasyTrage

3/15/18

Actions to stop doing:

- Being late to/absent from to meetings

Actions to start doing:

- -

Actions to keep doing:

- Meet 3-5 times a week for at least an hour or two in the last sprint
- Communicating effectively as a team
- Set small personal goals between meetings
- Asking TAs about unfamiliar technology and sharing learning resources

Work completed/not completed:

Completed:

- Let user enter api keys and secrets and store them on the backend
- Take withdrawal fees into account for trade suggestions and display it on the front end
- Let user enter amount and deposit address for an arbitrage process, have their last address for each exchange persist
- Send request to make trade / transfer from front-end

Not completed:

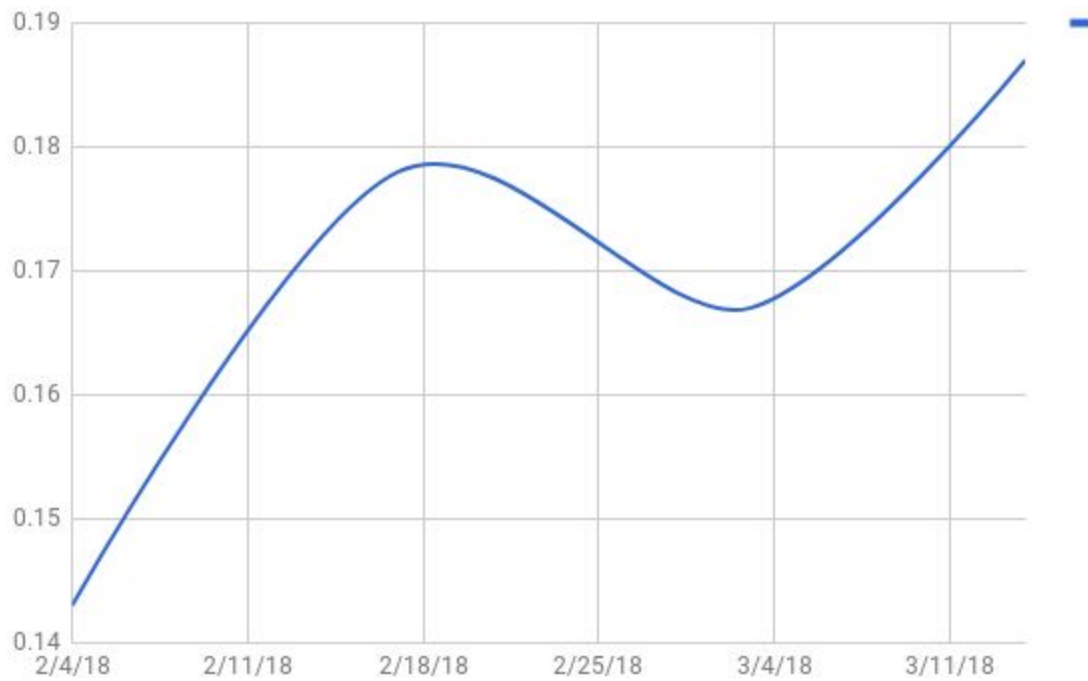

- Have the backend execute trades / transfers
- Trade history (removed from sprint plan and release plan in mid-sprint revisions)

Work Completion Rate
