

Sprint 2 Retrospective

EasyTrage

2/17/18

Actions to stop doing:

- Coming late to/missing meetings
- Not working on the project / leaving it for later and struggling to juggle goals at the end of the sprint with homework

Actions to start doing:

- More pair programming
- Do scrum more often
- Work out some better times for meetings so not everyone is sleepy
- Reach out to teammates to work together / explain things they have experience with

Actions to keep doing:

- Communicating effectively as a team
- Set small personal goals between meetings
- Asking TAs about unfamiliar technology and sharing learning resources

Work completed/not completed:

Completed:

- Login and checking user input on login page done
- Registration and storing user data + web token works
- Linking UI with backend successful
- Routes and API calls to exchanges set up

Not completed:

- UI does not yet render exchange info from the server
- Trade suggestions calculations, route, front-end, etc not implemented
