Sprint 1 Retrospective
EasyTrage
2/4/18

Actions to stop doing:
- Everyone focusing on one component, this is basically the waterfall method

Actions to start doing:
- Start incremental work on sprint goals much sooner in between other work, even if it's just a half hour at a time
- Working together more in person or screen sharing

Actions to keep doing:
- Communicating effectively as a team
- Set small personal goals between meetings

Work completed/not completed:
Completed:
- Learned how react works
- Learned how to connect react to Express/Node
- Set up files required to dockerize the server and database
- Login form

Not completed:
- Login backend (db)

Work Completion Rate
- 2 User Stories completed, sprint duration = 14 days
  - 2/14 = 1/7 user stories / day
- 8 story points implemented
  - 8/14 = 0.57 story points / day
- 17 hours of work completed in 2 user stories
  - 17/14 = 1.21 hours / day
